

HTML & Bootstrap Sample Question

Given the following web page, add the appropriate HTML elements and **Bootstrap classes** to the given HTML body to get the following design on a medium display.

Note: do not worry about adding the bootstrap source, you only need to:

- add the required bootstrap classes
- and the appropriate HTML elements
- and use inline style to show the different colors.

Using Bootstrap h1

first part h4	Second part split into 4 equal boxes - aqua color	
I am one third the second part	first quadrant- beige color	second quadrant - pink color
	third quadrant	fourth quadrant
